

Federal Energy Legislation

Federal laws and regulations set multiple energy management requirements for Federal agencies spanning energy efficiency, renewable energy, water conservation, and alternative fuel use. For details on the specific Acts that affect our federal clients, please see the related links below:

[Energy Independence & Security Act \(EISA\)](#)

[Executive Order 13514](#)

*Federal Leadership in Environmental, Energy,
and Economic Performance*

[Executive Order \(E.O.\) 13423](#)

Strengthening Federal Environmental, Energy, and Transportation Management

[EPA Act 2005](#)

[Executive Order 13221](#)

Energy Efficient Standby Power Devices

[EPA Act 1992](#)

[National Energy Conservation Policy Act](#)
